If you're tired of your house looking the same and want to use this time at hand to give it a quick makeover or add something new to freshen up your table or a corner, swing by The Gallery Store (TGS) at the Kolkata Centre for Creativity. Housed on their second floor, TGS is known for its handcraft-based stock of decor, tableware and lifestyle items.

"At TGS, we have meticulously curated a tasteful selection of fine art pieces and luxury home decor for people who appreciate beauty in utility. We have a varied selection of home accents, tableware, ceramics, affordable art and uniquely crafted contemporary gifts. We have introduced TGS's online store to reach out to our discerning customers across the country with its exquisite and exclusive collections," said Richa Agarwal, chairperson, Kolkata Centre for Creativity.
